

Chillydyne Rack Scale System, CF-CDU15 End of Life cycle (EOL) Notice

To whom it may concern,

This letter is to inform you that Chillydyne plans to execute an End of Life cycle (EOL) process for the CF-CDU15, Chillydyne Rack Scale System. We have decided to discontinue this product in order to provide you with more advanced products that may fit your needs and the growing demand for liquid cooling.

We appreciate your use of the system, and to alleviate any inconvenience you may have we are offering a last-time purchase. Please contact our VP of sales, contact information below, to proceed with this order. All purchase orders must be received by October 11th, 2024. For those who currently have systems, we will continue to offer support according to the warranty period, 1 year from delivery. We sincerely appreciate your use of the CF-CDU15 and we ask your understanding of any inconvenience this may have caused.

Please contact David Shepard with any questions or concerns, or if you would like to proceed with an order.
